Dinosaur Pattern Instructions

Since the sewing method is quite unique, it would be better to watch the video before proceeding.

TAIL SEWING

Centered on the back, close to the bottom, sew the tail. However, when sewing the tail, you should add a little stuffing inside to help it maintain its shape.

HANDS SEWING

Before sewing, you should pass your needle through the first stitch. Fasten off. Flip hand over, then insert the needle into the last stitch. Fasten off. Next, pass the needle through the first stitch again. Fasten off. Between Rounds 11-12, below the eye, sew the hands

FEET SEW

Below the hands, at the bottom of the body, sew the feet. But be careful, you should place the long side towards the bottom

HORNS SEW

First, connect the first stitch to the last stitch. Then, from the top to the tail, evenly sew these five horns onto the dinosaur's back.
